PROFESSIONAL SUMMARY

Backend Developer with eight months of hands-on experience building RESTful APIs using Node.js and NestJS, now focused on Java and Spring Boot. Strong foundation in Spring Boot, Spring Security, Spring Cloud, and SQL/NoSQL databases, reinforced through independent project work. Strong understanding of backend architecture and API design, with additional experience in React.js and full-stack development. Adaptable and quick to learn new technologies, seeking a Backend or Full Stack Developer role to contribute to scalable and reliable production systems.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript

Backend: Spring Boot, Node.js, NestJS, RESTful API Design

Security & Authentication: Spring Security, JWT, Keycloak

Microservices & Distributed Systems: Spring Cloud, OpenFeign, REST Clients, API Gateway, Inter-Service Communication.

Databases: MySQL, MongoDB, JPA / Hibernate

DevOps & Containerization: Docker

Frontend: React.js, HTML, CSS, Tailwind CSS

Tools & Platforms: Git, GitLab, Postman, Maven

EXPERIENCE

Skillmine Technology Private Ltd

Jan 2025 – Sep 2025

Software Developer (Intern → Jr. Software Developer)

- Developed and maintained RESTful APIs using NestJS for scalable web applications.
- Integrated MongoDB schemas and optimized database queries, improving backend performance by approximately 20%.
- Collaborated with frontend teams using React.js to ensure seamless API integration.
- Participated in code reviews, debugging, and deployment, improving application stability and quality.
- Contributed to feature enhancements and resolved production issues on the First Credit Service project, improving application reliability and user experience.

PROJECT

E-Commerce Microservices Suite

- Built a domain-driven microservices backend with Order, Product, and Inventory services using Spring Boot, MySQL, and MongoDB.
- Implemented inter-service communication using OpenFeign and RestClient, with API Gateway routing across services.
- Implemented Docker-based containerization and exploring Keycloak for centralized authentication/authorization.
- Implemented centralized exception handling using @RestControllerAdvice, providing consistent and structured error responses across services.
- Documented REST APIs using springdoc-openapi and Swagger UI to simplify API integration and testing.

EDUCATION

Kamaraj College of Engineering and Technology

B.Tech, Artificial Intelligence and Data Science

2021 – 2025

CGPA: 7.72
